Police said two men, one of them armed with a revolver, entered Ernie Jean's tavern, 106 State street, Madison, about 3:25 a.m. yesterday, rifled the cash register, took money and wallets from seven patrons and slugged one of the patrons with a pistol butt. They then emptied the cash register and one of the men approached Thomas O'Dougherty, 1008 State street, and struck him on the head with a pistol. O'Dougherty told police later he did not know why he was struck.

10th Sewer Break Occurs on Amos Ave. at Franklin

Granite City's tenth sanitary sewer break is expected to be a topic at tonight's 8 o'clock council session. The aldermen just last week authorized A. R. Seebold Co. to begin repairs to the ninth break which was discovered several weeks ago on Fabling road.

The latest break was "run upon" by a street department truck which sank in the street on Amos avenue east of Franklin avenue.

Street Supt. Warfield said the truck was loaded with street materials and had to be pulled from a hole by a tow truck. Warfield said empty delivery trucks, including a concrete mixer truck, had passed over the street only moments before it collapsed under the street department vehicle.

A pump from the fire department was called out Thursday to aid the street department in agitating sand to flush the line in an effort to open it, but work had to be started immediately to pump sewage around the break.

Warfield said the eight or 10-inch sanitary line is about 12 feet below the street surface. "It's in another low place in the Nameoki area, similar to the areas where the other breaks are occurring."

Council members are expecting a detailed report from the city engineer on possible steps to prevent further breaks.

Youth Program Job Applications to Be Accepted Tues.

A Neighborhood Youth Corps summer employment program for in-school youths will be operated again this year in Granite City. Mayor Donald Parney announced details of the proposed plan today.

About 50 boys and girls are expected to take part in the program, which assigns in-school youthful workers to tasks in various city departments, under direct supervision of adult leaders, or at jobs in churches and youth service agencies.

Those eligible for employment through the project are youths 16 years of age or older, whose family income conforms to factors set forth in federal guidelines. Mayor Parney explained, Most important, he added, the young employees must be planning to return to school this fall.

Contact Youth Office Starting early tomorrow morning, interested young people are invited to call the Coordinated Youth Services office, at 876-2383, and ask for Mrs. Lillian Douglas. She will arrange an appointment with the prospective employee for later the same day to complete the necessary job application forms.

Applications will be accepted at the CYS office after tomorrow; however, processing of applicants is expected to faster Tuesday, as an NYC supervisor will be on hand to assist the CYS staff worker.

The program will get under way June 16 and continue through Aug. 22. Youthful employees will receive \$1.30 per hour and work a 26-hour week during the ten weeks.

Three-Year History Mayor Parney, who started the program here three years ago with six to eight young people, is assisted in administering the youth employment service by C. A. MacMillan, CYS executive director.

A major portion of the program funds is provided by the Neighborhood Youth Corps, a project of the Bureau of Work Training Programs under the U. S. Department of Labor operating in Madison and St. Clair counties.

Additional funding assistance was furnished last year by the Tri-Cities Chamber of Commerce and the Associated Retailers and Civic Association, each group contributing \$300, and the Downtown Granite City Shopping Center Association, \$200.

Cleaning, Beautification An additional \$1000 was authorized by the city council in 1968 to purchase small tools and equipment and flowers, shrubbery and trees as part of a clean-up and beautification project carried out by the young workers. Funds from the civic organizations were used to hire an adult supervisor.

Parney stressed that none of the youngsters are to do work normally done by city crews. The added work is intended for the betterment of the entire community.

Among those hired last summer, 13 youths worked in beautification projects in various areas of the community; 12 were employed at jobs in and around the city hall; seven each were assigned to the Granite City park district and the Kirkpatrick Homes housing project; four worked with the humane officer at the Granite City animal shelter; and three each were assigned jobs at the sewer treatment plant and the public library.

Numerous Employers Other youths hired through the NYC program were employed by St. Elizabeth Hospital, the YMCA, Coordinated Youth Services, township assessor, city painter, Peace Lutheran Church, Namecki Presbyterian Church, St. John United Church of Christ, West 22nd Street Baptist Church and Grace Baptist Church.

"Through this program, we hope to keep the youth of our community busy and provide them a way to better themselves this summer," the mayor commented.

After the CYS office accepts the applications, the papers are sent to NYC offices in East St. Louis for approval and returned here for Mayor Parney to designate the jobs to be completed.

Under the federal job program, the youth of our community are weighed by the NYC consultants before selection of an employee is determined.

Price Seeks \$200,000 To Start Hillside Plan

Cong. Melvin Price this week is urging the House Appropriations subcommittee on public works to approve over \$12 million for four Illinois flood control and navigation projects, including \$200,000 for advance engineering and design work on a Cahokia Creek low-water dam, a component of an omnibus interior flood control program proposed for Madison and St. Clair counties.

The project is "of great importance and portend in long-range terms" because it is a part of a multi-million-dollar hillside drainage plan that "we have been seeking for some time," he said in a statement to the subcommittee.

Former Officials May Seek Delegate Posts

Speculation about potential Illinois constitutional convention delegate candidates from this state senatorial district currently is centering on Wendell Durr, Edwardsville attorney; Dan Churovich, a Granite City township assistant supervisor; Dick Mudge Jr., former Madison county state's attorney; and Lucien Ringier, former Wood River mayor.

Two delegates will be elected from each of 88 districts. Primaries are set for Sept. 26, with general elections Nov. 18, and the convention opening Dec. 8. Filing will take place July 7-11.

9 Philadelphia Firms Studying Plant Sites

D. Reid Ross, Regional Industrial Development Corp. official, today credited a visit by 20 area businessmen to Philadelphia May 19-23 with prompting nine Philadelphia firms to actively seek expansion sites in this region. Another 23 firms expressed strong interest in material presented to them by the group and requested more data, he added.

Of the nine, two are negotiating contracts for 30-acre and seven-acre sites. Similar groups earlier visited Detroit and Cleveland. Latest participants included Gene Graves, assistant to the SIU president.

Blue-White Signs to Mark Routes for River Festival

Four-lane highways, an extensive traffic control program and adequate parking will speed travel to and from the Mississippi River Festival on the Southern Illinois University-Southwestern campus when the six-week music event starts Friday, June 20.

Distinctive blue and white highway traffic signs, posted along major thoroughfares in the two-state metropolitan area, will direct Festival patrons to SIU-SW, and then to ample parking facilities on campus. Elaborate plans have been made to assure each concert-goer adequate parking.

To assure a minimum of delay, Festival patrons are being urged to arrive early and avoid the last-minute rush. Many persons are expected to take advantage of pick-up facilities or refreshment and concession areas planned on campus.

Traffic Pattern

Traffic studies indicate 63 per cent of those attending the symphony concerts will be from the St. Louis area on Interstate 270. 20% will arrive from the south on Route 157; and the remainder will use Poag road, Route 159 and Route 145.

Percentage figures for the popular concerts, to be presented weeknights, will be slightly lower than for the symphony programs along the highways noted, but the numbers involved will be larger since pop shows are expected to outnumber the classical programs by about two to one. It has been estimated that the average attendance for the symphony concerts will be about 4200 while the pop shows should average 8900.

SIU-SW security police will be in charge of traffic control for the Festival. Every entrance road to the 2600-acre university complex leading to the Festival site will be well-marked with new metal signs and patrolled by one or more security officers, equipped with walkie-talkies.

Traffic will be rerouted if necessary to avoid major tie-

Area's Government Tax Cost Rises 80% in Decade; Still Going Up

(This is the first of a series of articles reviewing the rising tax burden resulting from increased cost of government services at the local level.)

By HARRY BARNES

Quad-City taxpayers are digging deeper and deeper to meet the steadily mounting costs of government.

This year — in Granite City, Namooki, Venice and Chouteau townships — property owners will have to pay \$15,134,915 to meet their total tax bill.

A decade ago their tax bill for the 1968 year, collected in 1969, amounted to \$8,385,504. Thus, in ten years time, the aggregate tax bill of the four Quad-City townships has risen 80% — the equivalent of an annual tax boost of \$874,941 over the ten-year period.

An even bleaker outlook, according to a Press-Record study of tax rates, property assessments and tax billing, results from the fact that tax increases during the last five years developed at greater than twice the rate of the increase during the first half of the last decade.

Rises \$4.6 Millions

During the past five years total tax extensions aggregated Quad-City taxpayers increased from \$10,447,087 for the 1963 tax year, collected in 1964, to \$15,134,915 billed for the 1968 tax year to be collected this summer.

This tax increase of \$4,687,828 from the 1963 to 1968 tax years represents a 44% rise. But from the \$8,385,504 Quad-City tax bill in 1959 to the \$10,447,087 billed for the 1963 tax year, the increase amounted to \$2,062,583 for that five-year period, or less than half of the overall increase during the period of 1964 to 1969. On the basis of these figures, Quad-City's tax bills jumped slightly more than twice as much during the past five years as they did during the previous five years.

Rising tax costs, not only in the Quad-Cities but in the rest of Madison county as well, results directly from the financial needs of the multiplicity of taxing agencies to provide services to taxpayers within their respective districts. These expenses have followed the inflationary spiral of all other costs in recent years, and the least of which has been constantly increasing salary and wage demands.

Taxpayers not infrequently blame higher tax bills on rising tax rates and increased property assessments, but such is not the case. The amount of the tax bill is determined directly by the amount of tax money which each taxing district specifies in the adoption of its annual tax levy bill.

The amount of tax money needed by the taxing agency is applied against the property assessment to determine the tax rate necessary to collect the designated sum. Therefore, the rate varies according to the assessment to produce any given amount of money levied by the taxing agency. If a tax agency's levy remained unchanged from year to year, the total tax bill would be the same amount from year-to-year regardless of changes in the property valuations.

Probably the best illustration of this operative phase of the tax system is seen in a comparison of the 1958 and 1963 overall tax extensions for all Granite City township taxing agencies.

Tax Comparisons Show Upward Trend

Increased tax bills in five-year periods during last decade are shown in this table. Figures represent total tax extension by townships, including railroad taxes.

Township	1958 Tax	1963 Tax	Current Tax	10-Year Increase
Granite City	\$4,871,712	\$ 6,061,473	\$ 9,221,870	\$4,350,158
Namooki	716,387	1,047,759	1,661,552	945,165
Venice	2,203,763	2,546,670	3,009,417	805,654
Chouteau	593,642	791,926	1,242,076	648,434
Totals	\$8,385,504	\$10,447,828	\$15,134,915	\$6,749,411

For the 1968 tax year Granite City tax units had a total assessed valuation of \$15,735,352 and a total tax rate of \$3.104 per \$100 assessed valuation to raise a required \$4,871,712 in taxes from all of the townships six taxing agencies.

1963 Values Drop

Assessments for the 1963 year dropped, however, to \$14,038,433, while tax levies of the agencies increased because of higher operating costs. As a result the total tax rate for the 1968 tax year amounted to \$4.77, 71.2 on the basis of an overall tax rate of \$3.104 applied against an aggregate property valuation of \$15,735,352.

In succeeding years, the higher cost of government operation became decidedly more pronounced. By 1961 the Granite City tax bill was up to \$5,892,017 on the basis of a \$3.403 tax rate and by the 1963 tax year, for which taxes were collected in 1964, had climbed to a total of \$6,061,473, including Granite City's share of rail taxes.

Thus, from the 1958 tax year through the 1963 tax year—a five year period—the Granite City tax extension increased by \$1,189,761.

During the last five years — between the 1963 tax year and

the current tax extension to be collected this year — the increase has amounted to \$3,180,387, or more than twice the rate of rise during the first half of the decade.

Increase Is Area-Wide

A similar tax picture has developed during the ten-year period the other townships of the Quad-City area. In Namooki, Venice and Chouteau townships, records show that government costs also rose twice as much, or more, during the last five years as they did during the previous five-year period from 1959 to 1963.

In Namooki township, for five of its major taxing agencies located in most of the township, the tax bill for the 1968 year amounted to \$716,387. By the 1963 tax year, the overall extension climbed to \$1,047,759, a tax bill rise of \$331,372 for the five-year period.

But from the 1963 extension of \$1,047,759, the tax cost has risen during the last five years to this year's total of \$1,661,552, or an increase of \$613,793 in tax costs. The ten-year increase from 1958 to 1968 represents a total increase of \$945,165, or a rise of 132% over the 1958 extension.

Government costs to the tax-

payable directly to the county treasurer's office. Granite City's overall tax bill for its six taxing agencies this year is \$3,009,417 more than the combined tax extensions for all of the other three townships of the Quad-City area.

Shows 90% Increase

In addition it reflects a 90% increase in the Granite City tax bill over the last ten years. The total tax extension for Granite City township for the 1968 tax year amounted to \$4,871,712 on the basis of an overall tax rate of \$3.104 applied against an aggregate property valuation of \$15,735,352.

In succeeding years, the higher cost of government operation became decidedly more pronounced. By 1961 the Granite City tax bill was up to \$5,892,017 on the basis of a \$3.403 tax rate and by the 1963 tax year, for which taxes were collected in 1964, had climbed to a total of \$6,061,473, including Granite City's share of rail taxes.

Thus, from the 1958 tax year through the 1963 tax year—a five year period—the Granite City tax extension increased by \$1,189,761.

During the last five years — between the 1963 tax year and

payers in Venice township jumped from a total tax extension of \$2,203,763 in 1968 to \$2,546,670 in 1963, an increase of \$342,907 during those five years. From 1963 until the 1968 tax year, however, the tax billing rose from the \$2,546,670 figure of 1963 to this year's collection figure of \$3,009,417, which is a rise of \$462,747 for the second half of the ten-year period.

Tax Cost up 36%

On this basis, Venice township tax costs during the ten-year period have increased \$805,654, or 36%, from the 1958 extension.

The tax bill of Chouteau township taxpayers has more than doubled during the last decade, and again at a twice greater rate during the last five years.

For the 1968 tax year Chouteau township taxpayers were billed for only \$593,642 and by 1963—five years later—the tax bill was up to \$791,926, an increase of \$198,284.

This year, however, the Chouteau township tax bill for all agencies amounts to \$1,242,076, an increase of \$451,150 during the past five years, and an increase of \$648,434 over the last ten years. This amounts to a ten-year tax increase of 115%.

Boys Strike Girl, 13; Left Foot Is Broken

Mary Lee Young, 13, daughter of Mrs. Ameter Young, 1165 Bissell street, Venice, suffered a broken left foot Thursday afternoon when she was attacked by a group of juveniles in Venice, police reported.

Police said they are seeking three boys who had been bothering the girl on her way home from school during recent weeks. Officers said the boys have been identified and juvenile cards will be filed against them. The girl was admitted to St. Elizabeth Hospital.

Electric Cord Not Factor in Boy's Death

George B. Lee sr., 2536 Iowa street, father of George B. Lee, 11, who was apparently electrocuted on Tuesday as he stepped from the family's camper trailer, explained during the weekend that an extension cord from the house to the trailer was strung above the trailer and could not have become entangled in the dog's chain leash, as was first believed.

He told the Press-Record that an Illinois Power Co. representative, in the presence of a police officer, made a thorough check of the trailer and could find no short-circuit in the trailer wiring. The exact way in which the electric current reached the boy and dog remains a mystery at this time.

MORE ABOUT
28 Injured

Highway 162 about two miles north of Granite City, his family reported.

Couple in 2 Crashes
Ewing L. Andrews, 34, and his wife, Ruth, 35, both of 2230 Wilshire drive, suffered neck pains when involved in two auto mishaps Thursday.

At 12:50 p.m. Thursday at Nameoki and Johnson roads, the auto of Deborah Smith, 3244 Edgewood, was driven into a ditch when it collided with the auto of George Dorste, 1109 Iowa street, Madison.

At 4:30 p.m. Thursday, when Andrews started and then slowed his car, it was struck from the rear by the westbound car of Deborah Baker, 4751 Vincent avenue, on Niedringhaus avenue at Edison avenue.

Two persons were treated in St. Elizabeth Hospital at 1:45 a.m. Friday following an accident that involved three autos and caused a fourth car to enter a ditch to avoid the collision.

Treated were Barbara Talley, 36, of 5109 Rapp road, driver of one of the cars, and Janita Adams, 59, Kennett, a passenger in one of the other vehicles. The Talley woman was treated for minor injuries and was X-rayed and released, while the other woman was admitted in a semi-conscious condition.

State police said a car being driven south on Route 111 about a mile and a half north of Interstate 70, by Darrell Foster, St. Louis, passed another car, lost control and struck the Talley auto, which was northbound.

Foster's car then veered into the northbound car of Ole Mill, Kennett, Mo., officers said. A car driven by Charles Daigler, 3833 B street, ran into a ditch to avoid hitting the three-car pileup.

Thomas R. Gagen, 25, East St. Louis, was admitted to St. Elizabeth Hospital at 11:45 p.m. Friday after his car struck a parked auto in the 1600 block of McCabridge avenue, Madison.

Gagen was treated for a chin laceration requiring 18 sutures and for pains to the stomach and ribs, and was X-rayed for a possible cerebral concussion.

Police said Gagen's auto apparently veered across the street and struck the parked car. The parked vehicle, damaged in the front end, was owned by Joshua Sanders, 1015 McCabridge.

Vivian A. Koch, 16, of Rural Route Two, Edwardsville, was charged by police with failure to yield on a left turn at an intersection at 8:40 p.m. yesterday after her auto crashed into a Granite City youth's car at Pontoon and Nameoki roads.

She is to appear in court by June 16.

Admitted at St. Elizabeth Hospital was the driver of the second car, Dennis L. Barnhardt, 19, of 2261 Edison avenue, who underwent X-rays of the skull and left knee.

The Koch girl, who struck her north on the steering wheel, suffered a cut lip.

Police said the girl was attempting to make a left turn off Pontoon onto Nameoki road and struck Barnhardt's car which was eastbound on Pontoon. Extensive damage was reported to both vehicles.

A passenger in the Barnhardt vehicle, O'Neal Perrin, 2717 Harding bld., suffered slight injuries, according to police, but did not require hospital treatment.

Hurt on Rt. 111
Mrs. Marie Nix, Collinsville, and her son, Dennis Nix, 16, were injured Saturday night at 10:35 a.m. when their auto skidded and struck a tow truck parked

Man, Woman Shot
While in Parked
Auto on Sunday

A man and a woman from the Quad-Cities were shot while they were in an auto parked along Collinsville road near Route 111 about 6:30 p.m. Sunday.

Wounded were George Mathis, 40, of 821 Iowa street, Madison, and Mrs. Robbie Castle, 46, of 2118 Missouri avenue.

The Madison county sheriff's office said Mathis, operator of the Town tavern at 1312 State street, Madison, was shot in the back. The bullet came out beneath his collar bone and struck Mrs. Castle in the chest.

Mathis, who was bleeding, was unable to drive, and Mrs. Castle took control of the car. She was headed west by a state trooper about a mile from Route 111.

Mathis told sheriff's deputies that he knew the assailant but refused to identify him.

Mrs. Castle and Mathis were admitted to St. Elizabeth Hospital and were reported to be in fair condition today.

The sheriff's office is continuing its investigation of the case.

Four spinner hubcaps were stolen from the parked 1963 auto of Mark Wolf, 33 Del Rio drive, Friday night in the 2300 block of West 24th street.

A 14-inch-screen portable television set and a black wallet were stolen from the room of Larry Dye at the YMCA Thursday evening.

Lyle Tempel, 4104 Braden avenue, reported at 7:30 p.m. Sunday that a power lawn mower valued at \$84 was taken from a tool shed at his home after Friday.

Attends Funeral
Mrs. Pearl Thomas, 2608 Hodges avenue, attended the funeral Saturday of a former resident, John Davies of St. Louis, who died May 28. He was a contractor who built several homes in the East Granite area many years ago. He is survived by a wife, Mrs. Sylvia Davies of the Lutheran Home, and two daughters and six grandchildren.

She sustained a fracture of the left arm and a cerebral concussion and had 30 sutures applied to the wound on the left knee and left arm.

\$101,885 School Building Improvements in Next Year

Proposed building fund budget items to permit improvements and remodeling in Granite City schools for the 1969-70 school year have been approved by the Granite City school board as one of the steps toward completion of the district's next budget.

The budget list proposing \$101,885 worth of repair and remodeling work was submitted to the board by Tully A. Heubner, director of buildings and grounds, who pointed out that the list was being submitted early so that bids may be called soon on many of the projects.

Heubner pointed out that the list does not comprise his total budget, but only those items which fall into certain budget categories.

Among items listed is \$19,000 for sealing and chipping parking lots and sealing existing asphalt and improvements to grounds at Coolidge and Grigsby junior high schools, Granite City high school and Frohardt, Lake, Marshall, Maryville, Nameoki, Parkview, Steallings and Webster grade schools.

Largest of these items is \$9000 for blacktopping at Parkview school and \$5000 for asphalt around the gym at Grigsby.

A total of \$1400 is set up for sealing and chipping the parking lot at Coolidge and \$1500 is budgeted for a new walk at the gym at the senior high school.

At Lake school, \$2300 is budgeted for sealing and chipping the parking lot and drive and \$1500 for extending the present blacktop surface.

Remodeling work at eight schools and the board of education office calls for expenditure of \$83,450, the bulk of which will go for installation of a new steam line at GCIS at an estimated cost of \$40,000, and installation of new windows in the auditorium and in the front of the main building at an estimated cost of \$12,000.

The items also include \$2000 for installation of two restrooms at Lake school and \$1000 for converting a kitchen into a drafting and computer classroom at the high school.

For the board office, the budget lists \$3500 for remodeling an old office into quarters for the Title I office and audiovisual facilities.

Other repairs such as replacement of windows, construction of partitions, installation of electrical outlets and similar improvements are to be made out of the remodeling budget at Logan, Emerson, Maryville, Parkview, Nierdinghaus and Grigsby.

An item of \$8000 is listed for two incinerators at \$4000 each. A total of \$1600 is budgeted for small equipment purchases and another \$9785 is budgeted for purchase of replacement equipment, such as water coolers, window shades, air compressors, light fixtures and venetian blinds.

Store Sued for \$35,000

A suit for \$35,000 was filed last week for Dorothy Gathright against Schermer's supermarket in Madison in the Madison county circuit court at Edwardsville. The complaint alleges she was injured when she fell on the floor in the store, and charged negligence on the claim that the aisle was cluttered with fruit, vegetables and other items.

Rent Church Rooms For School Classes

Because of crowded conditions at Webster grade school, the Granite City school district has rented two rooms at Grace Baptist Church to be used as school classrooms, Supt. B. J. Davis has reported.

Supt. Davis said an agreement has been signed with the church for payment of \$82.50 per month for each room, plus \$75 monthly for custodial care. The church will employ the custodian.

The agreement is the same as that effected with other churches in which school classrooms are rented, according to Assistant Supt. Frank Kraus, who said there has been a request from at least one church for an increase in the rental fee.

National Support Sought on Detail Prescription Labeling

Nation-wide support is being sought for a resolution originated by a Granite City physician calling for a change in prescription labeling of drugs.

The proposal has gained the support of the Madison County and Illinois State Medical Societies, where it was introduced by Dr. W. W. Bowers, local physician-surgeon, aided by Dr. B. Berman, local pediatrician and Dr. Edward D. Vivier of Alton.

Dr. Bowers said he has conferred with State Rep. Ralph T. Smith, House Speaker, who plans to arrange for preparation of state legislation for the measure.

Dr. Bowers told the Press-Record Thursday afternoon that the resolution adopted by the county and state medical societies calls for labeling of drugs with name, dosage and

the amount of drug prescribed. "The passage of this resolution can have far-reaching benefits for both the patient and the doctor," he pointed out.

"It will have obvious advantages where the patient moves or changes doctors. Also, in cases of reaction from a medication, the patient as well as the doctor will know what drug is involved."

"In cases of overdose or accidental poisoning, knowing the name of the drug, the dosage and amount prescribed can save much time and even be lifesaving."

Prescriptions at present have only to carry on the label direction on how to take the medicine.

The resolution is to be presented to the American Medical Association during a meeting this month.

Gibbs, Mary Bailey, Virginia Carroll and Gladys Russell and daughter, Susan, and Miss Fran Reed. The group will meet again Wednesday from 9 a.m. to 3 p.m.

Car Theft Suspect Caught in Madison

The suspicious actions of a man who ducked into an alley when he saw a police officer led to the arrest in Madison early Friday morning of a suspect in an East St. Louis auto theft.

Madison officers said they picked up Charles Duckworth, 18, East St. Louis, hiding in a pup tent at the rear of Garces Home after he had run from police on two occasions.

He was transferred later Friday to East St. Louis police.

Police said that at 2:40 a.m. Friday they saw a man walking at Third street and Alton avenue and that he ran into the alley when he saw the police car. Officers drove to Third street and Ewing avenue to cut off the fleeing man, and at that location found a 1963 auto with the motor smoking. Inspection of the car showed the ignition wires had been wired to start the car without a key.

A few minutes later, officers alleged they spotted the same man who had fled earlier, riding a bicycle at Market street and Washington avenue. When he saw the police car he abandoned the bicycle and fled between buildings of the housing project. Officers searched the area and found Duckworth in the tent.

Police said the car had been stolen from Richard Stephens of East St. Louis.

SA Puppeteer to Give 35 Shows this Week

Walter Webb of St. Louis, a puppeteer who specializes in Bible stories and performs for children out-doors from a specially equipped sound truck, will conduct a series of child-evangelism meetings in the Quad-City area this week, Capt. Harold F. Thomas, local Salvation Army commander said today.

Miss Catherine E. Springer, Norman Fischer are Wed

MR. AND MRS. NORMAN CHARLES FISCHER, whose marriage took place Saturday evening at St. John Lutheran Church. The bride is the former Miss Catherine Elaine Springer.

The wedding of Miss Catherine Elaine Springer and Norman Charles Fischer took place Saturday afternoon at St. John Lutheran Church with the Rev. Samuel Boda officiating at the 5 o'clock ceremony.

The bride is a daughter of Mr. and Mrs. Robert Springer, 3064 Lake street. Mr. Fischer's parents are Mr. and Mrs. Lloyd D. Fischer of Collinsville.

Arrangements of white gladiolus, yellow mums and greenery decorated the altar lighted with burning candles at either side.

Miss Phyllis Boda presided at the organ, and the vocalist was Miss Peggy Lauth. The songs were the Lord's Prayer, "The Benediction" and "Truly I Love Thee."

Given in marriage by her father, the bride wore a gown of silk organza and Chantilly lace. The Empire bodice of organza was applied white motifs of lace and the neckline was traced with tiny seed pearls. The gown featured three-quarter sleeves flared at the elbows and an "A" line skirt with lace motifs in the front. A chapel train was edged

with a border of lace. A tiered melody-length veil of imported silk illusion was secured with a forward headpiece of pearls and organza rosebuds. The bride held a bouquet of white carnations centered, with three yellow orchids, English ivy and streamers.

Mrs. Barbara Lakin, a sister of the bride, was matron of honor, serving with three bridesmaids, Miss Diane Meade, a cousin, Miss Becky Fischer, the bridegroom's sister, and Mrs. Judy Young.

The honor attendant was in a pale yellow and white silk organza gown, the Empire bodice of organza trimmed with mint green velvet ribbon and ending in a demure bow in the back. Green and yellow rosebuds and ruffles trimmed the front of the gown, and lace edged the scooped neckline.

The bridesmaids were similarly attired and all carried colonial bouquets of green carnations and yellow daisies. A little flower girl, Pamela Meade, wore a white taffeta dress with a border of lace on the skirt. She carried a basket of yellow and green daisies. She wore a large white silk bow in her hair with streamers of yellow and white daisies.

The mother of the bride was in an aqua silk coat and dress ensemble trimmed with applied Venice lace and a corsage of white carnations tipped with blue. The bridegroom's mother chose a haint green silk worsted dress with applied bead trim. Her flowers were a corsage of white carnations with small green bows.

Phillip Edwards was best man for Mr. Fischer, and the list of groomsmen and ushers consisted of Louis Holst, Gary West, a cousin of the bridegroom, Jack

Behel, Mark Splaingard and Mike Clark. The wedding reception was held in the Fellowship Hall of the church, and the bride and groom left afterward for a honeymoon at the Lodge of the Four Seasons in the Ozarks. When they return, they will live at 3904a Lake street.

The bride, a 1967 graduate of Granite City high school, holds a secretarial position with General Steel Industries. Mr. Fischer was graduated from Collinsville high school and attended McKendree College in Lebanon. He is employed by Dow Chemical Co.

Out-of-town guests here for the wedding were Mr. and Mrs. Nicholas Marrye and son of Munster, Ind., and Mr. and Mrs. Harold Harmon of Dyer, Ind.

The dining table, adorned with a "class of '69" theme, was centered with a gowned figurine leaving the "arch of the future," which was covered with yellow and white daisies. The honoree received many gifts.

PLAN NEXT SCOUT YEAR

Mrs. Mary Lockhart, 2848 Cleveland blvd., chairman of Neighborhood Three Girl Scout leaders, held a neighborhood service team meeting in her home Wednesday evening, and a projected calendar for the 1969-70 scout year was planned.

Mrs. Lockhart announced the

dates for district and neighborhood events. It was decided to change the meeting night of the service team to the fourth Monday, commencing in September. The regular leaders' meeting will remain the first Thursday at 7:30 p.m. at Marshall school.

Hostesses were appointed for the team. Consultants and organizers will meet at the chairman's home Aug. 18 to make plans for a training session in September for new leaders welcomed earlier this year. Leaders are to notify their consultants of the type of training program they desire.

The hostesses served refreshments to Mesdames Mary Rita Ahlers, Velma Collins, Jo Ann Dix, Mae Lee and Doris Stotz.

Presiding the luncheon, Clyde Lee, principal, on behalf of Supt. B. J. Davis and the school board, presented a certificate of appreciation to Miss Dorothy Von Gruenigen, who is retiring this year after teaching for 44 years for the Granite City school system. One of the teachers, Mrs. Ruth Hopkins on behalf of all Webster teachers presented her with a gift, and Mrs. Mae Lee, president of the PTA, also presented Miss "Von" with a gift on behalf of the unit.

AGAIN CHOSEN AS QUEEN

Miss Naomi Love was crowned "queen of the week" for the third consecutive time during a meeting of the Tops Will Show 'Em club Thursday evening in the home of Mrs. Esther Reutzel, 2412 Pontoon road. She was presented with a silver star and a basket of fresh fruit from her fellow members.

The leader, Mrs. Marie Borger, opened the business meeting and led the group in the pledge of allegiance and the club pledge. About 15 members answered roll call with week's losses and gains. Those gaining drew activities from a penalty box and performed them for the members.

Mrs. Borger announced that due to an all-day trip to a St. Louis radio show Thursday, there will be no meeting. The club welcomed a visitor, Mrs. Alda Yurko, and presented a past officer, Mrs. Sheila Stich, with a silver charm.

Entertainment hostesses for the evening were Mrs. Darlene Harzel and Mrs. Reutzel, who supervised a game period. Prizes were won by Mrs. Borger, Mrs. Stich, Mrs. Yurko, Mrs. Bernice Gergen and Mrs. Ruth Rhenhardt.

New Government Facilities in '60s

(Granite City Long-Range Plan)

By the time of the 1960 census, Granite City's population had increased to 40,703 people. The period of the 1960s has been one of rapid expansion and planning for the future.

In 1960, Southern Illinois University conducted a study of the structure and operation of the city's government. This study was followed by Shepard, Morgan & Schwartz engineering report on stormwater and sanitary sewer needs, and by a market survey report of the Central Business District by SIU.

This period has also been one of rapid expansion of community facilities and services.

A new post office, two fire stations and the sewage treatment plant were constructed, and the library expanded. Also, 100 housing units for the elderly were finished in 1963 by the Granite City Housing Authority, with another 100 to be added later at The Anchorage.

Activities of the park and school districts including the establishment of six additional parks and two new schools. Widening of Nameoki road

Capable, Dedicated Leadership for Next Tri-Cities United Fund Campaign

With Leo H. Konzen chosen as general campaign chairman, and a new executive secretary selected, the important 1970 Tri-Cities United Fund drive this fall is beginning to take tangible and encouraging shape.

The major remaining task along with the completion of solicitation teams will be the preparation of an overall budget following reviews of agency requests this summer.

As LIF President H.D. Karszajtch has noted, a record goal is likely due to population growth, cost trends and increased needs. The task will not be easy, but it is within the reach of a community which accords it the priority that is deserved.

The leadership which is being developed during the spring and summer bodes well for the success of this fall's vital fund-raising program.

Johnson Ending Long Service As Madison Civil Defense Director

Retirement of Harry R. Johnson after 18 years as Madison civil defense director removes from direct participation one of the most knowledgeable defense leaders in local history.

He has taken extensive training, including attendance at nuclear detonations and has put his skills to effective use in the activities of the Madison CD staff, one of the largest anywhere.

Because of his dedication to adequate community preparedness for natural disasters as well as any enemy attack, we are confident he will continue to assist the CD cause informally in any way that his health and his other obligations permit.

High Honor, Responsibilities For Active Methodist Pastor

Elevation of Rev. R. Paul Sims of Niederrhein United Methodist Church to a district superintendent position will be a big loss to the Quad-Cities and a big gain for Carbondale and its environs.

Although he will be missed not only in the local church and in the service activities in which he has taken a leading role, his many friends here are aware of the even greater importance of his duties he will undertake this month — supervision of 91 southern Illinois churches which are served by 50 pastors.

The Value Of A Smile

(Miles Laboratories employee magazine, "The Alkalizer")

It costs nothing, but creates much. It enriches those who receive without impoverishing those who give.

None are so rich that they can get along without it and none are so poor but are richer for a smile.

It creates happiness in the home, fosters good will in a business and is the counteragent of friends.

It is rest to the weary, daylight to the discouraged, sunshine to the sad and nature's best antidote for trouble.

Yet it cannot be bought, begged, borrowed or stolen for it is something that is no earthly good to anybody till it is given away.

The brain can usually be measured by the mouth, inversely.

It's too bad that the future generations cannot be here to help us spend their money.

BACK THE TEACHERS OR LOSE THEIR SERVICES

To the Editor:

Dear parents—Has your child had the opportunity to attend school regularly in the Granite City school system?

Has the teachers shown an interest in your child?

I believe that the answer to both questions is "Yes."

Parents today are faced with the possibility of many of these teachers following a "no contract, no work" policy. Do you want this to happen?

If not, support the teachers in the Granite City schools or next year you may be without them.

FAMILY DAY COVERAGE VIEWED AS INADEQUATE

To the Editor:

Since industry is a citizen of a community and encourages its staff to actively participate in such community organizations as United Fund, Red Cross, Junior Achievement, etc., I was shocked to find that a civic-minded industry such as American Steel Foundries, Inc., did not rate better coverage in the Press-Record for the special event they sponsored on Saturday, May 24, 1968, commemorating 75 years of service to our community and our nation.

Even a "fender bender" or similar incident receives better, more detailed coverage in your paper than did this fine event.

American Steel Foundries has certainly performed its civic duty of community service, holding the welfare of the citizens in this community foremost in its civic activity.

The type of publicity this company received for its recent efforts is not conducive to the encouragement of the community's participation in our community affairs, and I sincerely hope your incidence also considered.

SIU-SW ENTERTAINER FAVORS THE VIET CONG

To the Editor:

It is an insult to the memory of the Quad-Cities whose pictures were shown on the front page of Thursday's paper to announce on page 20 the appearance of Joan Baez at the SIU Southwest campus.

Joan Baez has publicly announced that she would not entertain our men in Vietnam but would gladly perform at any time for the Viet Cong.

In my opinion, she is not a peace-loving woman.

Purchasing tickets to her performance serves as an endorsement of her opinions. I, for one, do not want to be associated with a denunciation of the men who have died so that we may be free.

DON'T LET JOYHOOD LOSE ITS JOY, MAGIC

To the Editor:

Today's children grow up too fast. They are being forced to grow up too fast. They are being forced to grow up too fast.

Children today can't believe in Mickey Mouse. They know Mickey Mouse isn't real. They know Mickey Mouse isn't real.

All the magic and joyfulness of childhood is being drained out of them. They are being drained out of them.

Why must it be so? The belief in Santa is really belief in the spirit of Christmas.

WITOLD MY NAME

THE SPECIAL EDUCATION NEEDS STRESSED

To the Editor:

I understand that several articles concerning Special Education which appeared in the Forum, and this seems to be a somewhat neglected subject in this area. My concern is, what is being done to correct this problem?

I am pleased to see the parents of the Special Education children have organized themselves to try and obtain the proper "tools" necessary to teach these children as all the other children of Granite City receive.

As a parent, I am concerned that the Special Education children are being given the same treatment as the other children of Granite City.

Perhaps if we, as parents, would read to our children instead of yelling at them, a better home environment for everyone would exist.

MOTHER OF SIX

URGES THAT SALARIES REMAIN COMPETITIVE

To the Editor:

Respect and admiration have been my opinion of the teachers of Granite City. After completing 12 years of teaching in the Granite City school system, I consider myself a fair critic.

I would like to see Granite City recruit the best teachers available.

It will be hard to be competitive with the surrounding areas unless our teachers' salaries can be comparable or, hopefully, superior to other communities.

The people of Granite City have always been concerned about education and have proved this by passing the bond issue.

Money is, therefore, available to get and keep the best teachers.

Our children should not be sent to mediocrity when Granite City is able to compete with any system in the state of Illinois and has always been considered one of the best school systems academically in the state of Illinois.

Disclosure Needed To Prevent Future Fortias Cases

The public and legal community have been stunned by the implications of the case of former Supreme Court Justice Abe Fortias.

What concerns the public is not just the conduct of one man, but a more fundamental question: How often does this kind of thing occur? To what extent are men in high public office reached by people with economic power?

The safest, simplest answer is disclosure.

I have made my mistakes in public office. Anyone who has had to vote on thousands of measures before the legislature is bound to make some errors.

But one decision I made before I ran for public office was right then and is right now. I said in 1954 that each year I hold public office I would make public my personal income. I have done that now for 14 years.

When I was a member of the House of Representatives and of the State Senate, I sent my income breakdown to all of the newspapers in my district. After I was elected Lieutenant Governor, I sent it to the news media in the state.

It does me no harm to disclose this.

If there is any financial interest which I have that the public thinks is improper, they can question me about it.

Another practice I have followed is to disclose how much is contributed to me in a campaign, how much has been spent, and for what purposes.

It is too late for legislative action in Illinois on income disclosure this session, but I would hope that the judicial branch of government, which has been given special electoral privileges, might lead the way in this matter.

Here are two things which could happen in the public interest:

1. All members of the U. S. Supreme Court could voluntarily disclose their sources of income.

2. In the next session of the Illinois General Assembly, a measure should be passed requiring all judges elected after October 31, 1970 to disclose their sources of income.

These measures would gradually move us in the right direction.

Before I offered jobs to administrative assistants in my office, I required them to agree to disclose their personal income once each year, just as I do.

I want the public to have full confidence in our office.

Nutrition Necessary for Learning

(American Association for the Advancement of Science)

Malnutrition in early life results in short stature and impairment of mental function, pediatricians Heinz F. Eichenwald and Peggy Crooke Fry of the University of Texas State Western Medical School in Dallas report.

"It has long been scientifically acceptable, and in some circles, even fashionable," says Drs. Eichenwald and Fry, "to ascribe many behavioral characteristics of the older child and adult to conditioning experiences received during infancy and perhaps prenatally. More recent data indicate that some of these factors have a biochemical rather than a psychosocial basis."

The best studied aspect of biochemical condition is nutrition.

Malnutrition may permanently and profoundly affect both the future intellectual and emotional development of the individual.

For humans, it is not known whether these results may be caused by malnutrition alone or in combination with infection and an inadequate social and emotional environment.

Comprehensive field and laboratory studies are urgently needed to determine the crucial time in development, if any, when malnutrition causes its major effects.

No methods exist today to identify and to measure quantitatively the biochemical/abnormalities of mild, moderate, and severe malnutrition.

Pro, Con of Living in Europe

"Another Way of Living" by John Bainbridge, New York, Holt, Rinehart & Winston. 381 pages, \$7.95.

Reviewed by Harrison Youngren, a member of the Management Faculty of Southern Illinois University. (Review published in the Daily Egyptian, SIU Department of Journalism, Carbondale.)

Author Bainbridge has compiled a report of interviews he made with his "Gallery of Americans who choose to live in Europe."

One hesitates to call this a book for, aside from a threat of standard questions and nearly as standard answers, there is little in structure or content to justify the term.

While these interviews are generally urbane and amusing with many exceptions, they are shallow and repetitious.

The effect is that of a snack from the refrigerator to accompany rather than that of sitting down to a full meal.

In fact, the book seems to be designed for browsing and stopping when the eye lights on a bit of glitter. Unfortunately, nearly all the glitter is broken glass rather than polished gemstones.

Most of the artists, students and retired couples, however, are less articulate about the positive side of their existence, but rise in a mighty chorus when discussing the problems of an existence in Europe.

Recommended reading for anyone contemplating a move to the continent. For the rest, a mildly amusing experience.

50 YEARS AGO

JUNE 2, 1919

Many organizations have pledged support for a big home-coming celebration. The all-day event is planned for Friday, June 7. Returned soldiers will parade together with citizens, and a barbecue will follow. It was decided by organization representatives at a meeting held at the Elks club.

A. W. Saegesser of Granite City, who has invented and patented a device for fuel saving on Ford cars, has a brother, Emmet, a former local boy now in Oklahoma, who is also an inventive genius. He is giving exhibition airplane flights through the South-west. Prior to entering the Army, from which he has been honorably discharged as a corporal, he constructed a plane himself and made several short flights.

At present, he is perfecting a device whereby an airplane can attain full flight by a direct rise into the air instead of having to take a running start. It is also said to give the operator sufficient control over it to enable him to hold in one position up in the air for some length of time. Aviation experts declare that this will revolutionize the art of flying and make it safer than motoring.

A teacher's training and responsibility. These salaries and other benefits should be the highest in the area.

The citizens of the school district should realize the plight of teachers and urge the board to bargain in good faith with representatives of the teachers.

CLASS OF 1919 BANNER, kept by Luella Deterding, who was class treasurer, was brought out for Thursday night's reunion during the 1969 commencement exercises of Granite City high school. Holding the banner, left to right, are—James Dillie, Ruby Compton Winters, and Bessie Hodge Henley, all of

the January 1919 graduating class; and Glyn Hodge, Viola Luckert Hodge, Luella Deterding, Ernest E. Veihl Jr., Mae Riley Mott, Henrietta Fink Strackeljah, Thelma McCullough Melzer, Phyllis Nicodemus Holmes, Della Hecht Stone, George Short and William Holst of the June class.

The surviving graduates of the class of 1919 of Granite City high school were honored at the 1969 GCHS commencement exercises Thursday night and at a class reunion and dinner party Friday evening at the Sunset Hill Holiday Inn restaurant.

The class of 1919 listed 48 graduates, including 14 in January and 34 in June. Fourteen of the half-century students are known to be dead, and no information could be obtained on four others.

At Thursday night's exercises the 50-year grads marched into the auditorium and received miniature diplomas prior to the awarding of diplomas to the 800-member 1969 class. The group was given recognition on the program by Lawrence McCauley, principal, who presented a resume of the two classes.

The day of the year was the same, May 29, in both 1919 and 1969, but the setting was different. The 1919 graduation took place in what is now Central Junior high school.

The old class flag continues to exist. It was saved for the 50 years by Luella Deterding of Granite City, who was the June class treasurer. It was displayed during the ceremonies and at the reunion.

Six members of the two classes married each other. Ruby Compton of Granite City and Walter Winters (deceased) were in the January class. Orville Brummer of the January class married Flora Laager of the June class. Brummer is a retired minister, and he and his wife live in Clearwater, Fla. Glyn Hodge married Viola Luckert, both of the June class. They reside in Granite City.

The granddaughter of the former Thelma McCullough, now Mrs. Charles Melzer of Effingham, is a member of the 1969 class. She is Pamela Melzer, daughter of Mr. and Mrs. Charles L. Melzer Jr., 3108 Mockingbird lane.

The class yearbook, "Granois Petite," from which portraits on this page were taken, was dedicated to the two classes. Miss Josephine Melnecke and Miss Marie Kaufmann. It shows that 99 freshmen were enrolled in the class when it entered high school in 1915.

The editor-in-chief was Fred Rueb. Others on the staff were Wanda McLellan, assistant editor; Buel Cotter, second assistant editor; Engle Eisenbarth and Maud Mueller, literary and social editors; Russell Moore and Oliver Winkler, joke editors; Phyllis Nicodemus, snapshot editor; George Short and Elmer Miller, athletic editors; Harry Hughes, business manager; and Ernest Veihl, assistant business manager.

Winters and Marshall became stars in basketball and track.

Among the concerns of the students were the "Great War," the Bolshevik take-over and reign of terror in Russia and the League of Nations vs. the Monroe Doctrine.

At commencement exercises the class was presented by W. F. Coolidge, principal. Diplomas were awarded by R. H. Larner, president of the board of education.

Officers of the January class were Thomas Marshall, president; Mildred Champion, vice-president; Bessie Hodge, secretary and salutorian; Ruby Compton, treasurer; and Walter Winters, valedictorian.

Officers of the June class were William Holst, president and salutorian; Harry Hughes, vice-president; Kathleen Rader, secretary; Luella Deterding, treasurer; and E. E. Veihl, valedictorian.

Surviving members are Mrs. Ruby Compton Winters of Granite City, Mrs. Bessie Hodge Henley of Granite City, Mrs. Mildred Champion Harrison of Florida, Mrs. Lucy Holmes Richie of Mountain Home, Ark., Mrs. Mary Nyers Androff of St. Louis, James Dillie of Evanston, Orville Brummer of Clearwater, Fla., Thomas Marshall of Santa Barbara, Calif., Phyllis Nicodemus Holmes of Glen Ellyn, Bessie DeBow Abraham of Key Royal, Fla.

GC Air Monitors Show Particulates over Goal

Granite City's air monitoring network data shows no significant change in the past two months with maximum values of particulate matter continuing to exceed the goal set by the state for heavy industrial areas. It was reported Saturday by Henry Bieniecki, chairman of the city Air Pollution Control board.

The information was compiled from air monitoring stations at the main fire station, Lake school, 2001 Twentieth street and at 15th street and Madison avenue.

The particulate matter air quality goal has a rating of 200. For all local stations, the maximum rating was 333, while the minimum was 48 and the average was 187, Bieniecki reported.

The highest rating of 533 was in March at the 20th street station.

Prof. Erwin Hoelscher, technical secretary, has announced

the installation of a wind direction and velocity indicator obtained on loan from Washington University to replace the indicator in the mobile station operated by the state at the main fire station and recently relocated in Venice.

Bieniecki said the indicator will be helpful in interpreting air pollution data and is on loan pending budget approval of equipment planned by the city board for monitoring.
